Trimester 3:

- Tuition: \$6,645
- **Day 1 Total: \$6,645**

USAeroTech 2016-2017

Tuition will be prorated yearly for students whose intent is to attend on a less than a full-time schedule (for example, a student who attends half days for two years). Fees will be due on the first day of school regardless of student schedule.

Tuition Charges for Out-of-Sequence Students

Tuition is subject to change with each handbook year for students on any schedule other than full-time. Full-time students who begin school at the published start of the school year in a full-time capacity will be guaranteed the tuition rate published in the corresponding year's handbook/catalog if they complete all course requirements in the school year of that catalog. All students who begin school on other than the published start of the school year in a full-time or part-time capacity or choose or become other than full-time or become out-of-sequence and need to make up a course or courses in the following school year will be subject to the tuition and fee schedule of the year in which they complete the course.

Veteran Administration (VA) Assistance

Students receiving VA financial assistance retain the responsibility to pay for tuition and fees if the VA should refuse to pay or reveals that a student lacks eligibility for the stated benefits.
